

## Installation Guide: Rubber Corner / Wall Guards

### **Components:**

- Rubber corner / wall guards – available at Safest Parking Products
- Plastic anchors (shields) and screws – included with purchase of product; available at Safest Parking Products (# of anchors / screws needed depends on the product).

### **What You Need**

- Gloves, safety glasses, dust mask, ear protection
- Traffic cones, drums or barricades for securing the site
- Heavy duty electric drill (and if drilling into concrete, a concrete drill bit)

### **Installation Instructions:**

Installation of Rubber Corner / Wall Guards:

<b>STEP 1:</b>	Place the corner / wall guard at the desired position.	
<b>STEP 2:</b>	Mark the screw hole positions on the wall.	
<b>STEP 3:</b>	Remove the product and drill holes, making sure the holes are clean of dust / debris. Insert plastic anchors (shields) into the holes.	
<b>STEP 4:</b>	Place the corner / wall guard back into the desired position, insert screws and tighten.
